Industrial Standards of Indonesia and Japanese Industrial Standard. This achievement cannot be separated by the three factors that make Chitose stand out from the rest : stability in quality, comfort, safe and healthy for the user, as well as a being aesthetically pleasing. From time to time, the quality of Chitose products has been strictly maintained. It is made possible by the production process; which referred to the integrated system of automation. The implementation of the system result in uniform and consistent shapes and quality for all Chitose products.
